

# County of Parker

## Resolution 25-25

### Statement of Intent – Proposal A of the 2025 Parker County Justice Bond

It is the intention of the Commissioners Court that, following the completion of the expansion of the Parker County Jail, if the jail has additional capacity beyond Parker County's needs and the county houses inmates from other governmental entities, that the difference between the cost paid to house those inmates and the amount the county is paid for housing them be used in its entirety to defray the tax impact on Parker County taxpayers of the bond debt incurred from Proposal A of the 2025 Parker County Justice Bond.
